**Branson Ultrasonics Corp. Position
Regarding the EU 'WEEE' and 'RoHS' Directives
September 2007**

Branson Ultrasonics Corporation is aware of and is in compliance with the European Union (EU) legislation for the recycling of waste for electrical and electronic equipment under the WEEE Directive 2002/96EC effective 13 August 2005, and the restrictions on the use of certain hazardous substances under the RoHS Directive 2002/95/EC effective after 1 July 2006.

Accordingly, Branson has assessed applying the WEEE and RoHS Directives to its business and the products it sells, and is ensuring its products are in compliance with the appropriate provisions of each Directive. Some of Branson's products are exempt under the provisions of the RoHS Directive. For more information on compliant products, contact the Branson **Customer Service Department** or call (203) 796-0400.

Branson will continue to monitor the transposition of applicable national legal requirements to ensure conformity to national legislation.

A handwritten signature in black ink that reads "Ed Boone".
